

Helvin Rymer

Cover Letter

October, 19th 2020

I am largely interested in the position being offered. I am eagerly looking to work on such an opportunity where I can use my web development skills. Skills such as HTML5, CSS, JavaScript, PHP, and MySQL. Frameworks I've worked with include Bootstrap, jQuery, Wordpress amongst others. I am readily available and excited to work!

I am a junior developer at this time. This is a new career path for me, after working in the real estate sales industry for 8 years. In 2019 I decided it was time I go back to what I loved to do when I attended college for a short period. I have the qualifications for the position! I've studied long, studied hard and have gained experience related to the requirements of the position being offered. I can also provide quality customer service, great communication skills and am always looking to improve my work as well as help improve those around me. I have advertising experience in many platforms, especially Facebook/Instagram, I have SEO experience, and experience across multiple web programming languages and that gives me the ability to deliver high quality work and flexibility.

Thank you for taking the time to read and consider my proposal for the position. I am very interested in the position and am looking forward to the opportunity.

Sincerely,
Helvin Rymer
